

Greetings

We started Joint development with Interuniversity Microelectronics Center, IMEC in 2005. It has passed 10 years since then. We had some activities together for 10 years: delivered and setup Hanwa ESD Testers in IMEC, Improve HANWA ESD Testers better, Reading papers, Patent, Exhibition together. Through all these activities, we developed new ESD Tester, exchanged each culture and network in ESD industry is going to be bigger than before.

The reason why my company can work well is by a warm support of my company's all partners. I really appreciate for warm support from all of you. I would like to advance for next step feeling how much great things meeting new people is.

The 44th INTERNEPCON JAPAN

The 44th INTERNEPCON JAPAN was held from January 14th to 16th in Tokyo Big Sight, Tokyo, Japan.

Concurrent shows were held in NEPCON JAPAN 2015, 32rd ELECTROTEST JAPAN, 16th IN PACKAGING TECHNOLOGY EXPO, 16th ELECTRONIC COMPONENTS & MATERIALS EXPO, 16th Printed Wiring Boards Expo, 5th FINE PROCESS TECHNOLOGY EXPO, WEARABLE EXPO-Wearable Device & Technology Expo, AUTOMOTIVE WORLD 2015 and LIGHTING JAPAN 2015.

Total number of visitors of NEPCON JAPAN 2015 was about 86,000. (38.8% up than the last year, updated by Reed Exhibitions Japan Ltd.)

There were many visitors inside "WEARABLE EXPO".
