

Greetings

The 70th National Sports Festival& The 15th National Sports Festival for People with Disabilities will be held in Wakayama. Opening ceremony will be 26th of September. Pre-open of these events started from beginning of Sep. A lot of athletes in Japan are coming to Wakayama to practice their sports here.

This year the number of visitors to Wakayama from another pref. and countries is extremely bigger than before, because of 1200 years anniversary in Mt.Koya and meeting pandas in the Adventure World and a calico cat as stationmaster of Kishi Station. We have a good relationship with Wakayama Pre. Government by cooperating together, joining events which are held in Wakayama, and supporting each other. When you come to Wakayama, please come and visit us. We are looking forward to seeing you in Wakayama. **President Takumi Hasebe**

Report of business trip to India

I am reporting my business trip to Bengaluru, India for 8 days.

Bengaluru is a city where is located in south of India. It was a cooler place than expected, because I heard it is very hot in India in summer time on news these days.

It was the first time for me to visit India. Before going there, I had an imagination like everyone wears a turban or there are performers controlling a sneak with music everywhere. But it was not.

The Bengaluru International Airport is new and beautiful airport. And roads are nice, cars keep to the left side and I saw many Japan brand cars. I was feeling like I am in Japan now that moment. Also after leaving from the airport, views are going to be different from the airport area. It was nice.

A hotel which I stayed is the hotel that a lot of Japanese people use, because Japan companies established by joint investment. Also there are many Japanese restaurants in the area.

Next day I had a heavy traffic jam on the way to meeting our customers.

And I saw Rickshaws. I took a ride in a Rickshaw. It looks like a bike or car, but it was totally different from them. It was a nice experience for me.

I enjoyed eating Indian foods and I was really impressed curry. They have many various curry more than I've known. I ate some curry tasting similar to Japanese curry, tasting Yogurt and tasting curry bread. These curry were nice tasting for me.

I had not only curry but also beer. There are many beer breweries in Bengaluru, so I watched bars which we can drink a fresh beer. The Taste was really good. I think Japanese people like Indian beer taste.

I've heard that cows or porks walking on roads in India, but in Bengaluru I didn't see the situation.

Bengaluru is an IT industry area. I am looking forward to seeing how it is going to change in the future.
